PRICE TWO CENTS

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

Dr. Miles' Restorative Nervine and Nerve and Liver Pills are sold by all druggists under a positive guarantee. First bottle free. If not cured, money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

CONTRACT

Awarded to a Spanish Company to Carry Prisoners to Spain.

THE COST \$535,000

On a Basis of Twenty-Five Thousand Men and Officers.

MAGICAL SANTIAGO CITY

Has Already Thrown Off Its Graveyard Appearance.

Major General Wilson's Command Leaves Charleston For Porto Rico—Miles' Men Tired of Waiting For a Convey—General Blanco Is Again Reported as Cut Off From Madrid by Cable—General Brooke's Recommendation as to Troops For the Porto Rican Invasion Not Made Public—General Woodford Calls on the President, but Refuses to Be Interviewed on the Spanish Situation.

Washington, July 21.—Arrangements practically were concluded by the government last night for the transportation of the Spanish prisoners at Santiago from Cuba to Spain.

The contract was awarded to the Spanish Transatlantic company, represented by J. M. Coballos & Co., of New York. The company agrees to carry the prisoners from Cuban ports to Spain at the rate of \$30 for each enlisted man and \$55 for each commissioned officer, subsistence to be furnished by the company on the army ration basis, as provided for in the government's advertisement for bids.

The award provides also that the company shall have five ships at Santiago in nine days from today, two in 17 days from today and enough to complete the transportation of the prisoners in 21 days from today.

On the basis of 24,000 enlisted men and 1,000 officers, it will cost the government \$535,000 to transport the prisoners.

The ships will fly the colors of Spain and will be manned, probably entirely, by Spanish crews. It was remarked as one of the curious developments of the war that the United States government should enter into a friendly contract with a company, many of whose vessels are auxiliaries to the Spanish navy and some of which have been captured or destroyed by the navy of the United States.

PORTO RICAN INVASION.

Arrangements Being Pushed by the War and Navy Departments.

Washington, July 21.—The war and navy departments are now engaged in making all of the arrangements for the dispatch of the Porto Rican expedition and Watson's eastern squadron. There

Oh, what a warm welcome the first little traveler whom Heaven guides to the door of a woman's heart receives from the happy mother. Every thought and care is given to the comfort and well being of the new comer after it has entered into the portals of life and taken its place at the family fireside.

Yet during the time when baby is expected few women do all they should to insure the little one's constitutional vigor and vigor. No mother wants to have a puny, weakly, sickly baby yet unless she herself is entirely healthy in the special, delicate structure which makes motherhood possible, the baby cannot thrive in some way for her weakness or neglect.

The surest way to avoid this is for the mother to reinforce her own strength by the use of Dr. Pierce's Favorite Prescription during the time of anticipation. It will make her perfectly healthy. It will lighten and brighten the time of waiting. It will make the ordeal of motherhood absolutely safe and comparatively free from pain and will insure a strong, healthy constitution for the baby.

Mrs. Nannie J. Taylor, of Lovelace, Hill Co., Texas, says: "I am the mother of eight children. I suffered from female weakness. I tried physicians with no avail. When I last became with child I saw the advertisement of Doctor Pierce's Favorite Prescription. I bought two bottles and took according to directions. When baby was born I had a very easy time and have not suffered one hour since from female weakness. Baby is as fat and healthy as can be."

Prospective mothers should send to the World's Dispensary Medical Association, Buffalo, N. Y., for a copy of Dr. Pierce's Common Sense Medical Adviser, which will be sent free on receipt of 21 cent United States stamps to pay the cost of mailing only, or 31 stamps for cloth-bound copy.

has occurred one of those natural pauses in the progress of the campaign incident to the completion of one set of operations and the initiation of another. There being no possibility of the receipt of news of a great battle or of a surrender there is less excitement and less evidence of nervous strain than for weeks past.

General Miles' expected departure was again deferred. The explanation given was that there was difficulty experienced at Santiago in securing the naval convoy for the expedition. It is known, however, in addition that the president himself has restrained General Miles to the extent of adjourning him in earnest terms not to commit the folly of starting for Porto Rico without the most complete preparation.

The government has profited by the lessons taught by the Santiago expedition. Aside from the actual loss of life that might be expected to result from a badly calculated start, it is realized that our relations with some of the European powers would be in a small measure at least impaired by the adverse moral effect created by anything approaching a defeat for the American arms at this stage of the war. Therefore, it is certain that, so far as the department can prevent, General Miles' soldiers will not run short of food, of tents to protect them from the tropical rains, nor of the means of transportation that were so deficient at the beginning of the Santiago movement.

According to the calculations at the navy department Admiral Dewey's fleet at Cavite should now be reinforced by the coast defense vessel Monterey, which, with her tender and collier, the Brutus has now been about 20 days out from Honolulu. With the addition of this fine and powerful monitor, Dewey will be amply able to take care of himself so long as the naval forces in the Philippines maintain the relative proportion they now occupy.

The war department was agreeably surprised at the number of bids received in answer to its proposals for transporting the Spaniards now at Santiago to Cadiz. The terms offered by some companies were regarded as reasonable. The bid from the Spanish Steamship company was a surprise to the department officials, and at least one of them thought that it might be good policy for the government to avail of this offer.

Dr. Greenleaf's last report to Secretary Alger from the American camp at Santiago came late yesterday afternoon and was to effect that while the yellow fever was widely spread among the troops it was very mild in type. General Danfield, who has been suffering from the disease, was reported to be improving.

LIKE MAGIC.

Santiago Has Emerged From Her Graveyard Appearance to Life and Energy.

Santiago de Cuba, July 21.—The city today presents a bright and cheerful picture to what it did a few days ago. Over 30 steamers flying the stars and stripes lie proudly in or near the harbor. Small boats are plying briskly to and fro on the blue waters. Several large steamers—the State of Texas, Leona and Aranzas—are alongside the wharves busily engaged in unloading their large cargoes of supplies and provisions.

In short, everything denotes bustle and activity. To the graveyard appearance of the city when it surrendered has succeeded a scene of life and energy, traffic and general activity. The immense sheds along the waterfront are already packed with merchandise and the large stores rented along Marina street are busy receiving goods, which are being steadily unloaded. Everywhere there are signs of a revival of commercial activity and prosperity.

The change in the appearance of the city is kaleidoscopic and a couple of days, when further shipments arrive, will suffice for the normal business to revive.

The trades and businesses opened their doors for the first time yesterday, cleared their warehouses and made ready for the receipt of goods. All the stores are open today by General McKibbin's orders, but the saloons remain closed for the present in order to avoid the possibility of a clash between the soldiers in case of drunkenness.

The electric light plant is working. The pawn shops are doing a rushing business, their counters being crowded by people of all sorts of color and conditions, pawning heirlooms, clothes, dresses and furniture. Officers tender their medals, spurs and swords, and civil employes offer their tortoise shell, gold headed canes of office for a mere song, which are in turn bought for fancy prices by American soldiers, officers or newspaper correspondents as relics of the war. There have been more machetes sold to our men as souvenirs than were laid down on the morning of the surrender, and crosses, service stripes and orders are cheerfully parted with for American cash.

BLANCO'S DISPATCHES.

Several of His Ciphers Drift Into This Country.

Washington, July 21.—Two days ago General A. W. Greely, chief signal officer, cabled instructions to his officers in Santiago to seal up and place a guard over the three cable lines connecting Santiago with Cienfuegos, whence, by a land line, communication is established with Havana. Last night General Greely was informed that his orders had been carried into effect.

The closing of the Cienfuegos cables absolutely isolates Havana and General Blanco from Madrid. Blanco's only means of communicating with the Madrid government now is by the Key West cable, which is under the strictest censorship by the government of the United States.

As a result of the sealing of the Santiago-Cienfuegos cables, several official dispatches passing between General

Blanco and the Spanish government drifted into this country yesterday. It is scarcely necessary to say that they did not reach their destination.

Expect to Remain at Dun Loring.

Washington, July 21.—Interest at Camp Alger was divided yesterday among the subjects of leaving camp, typhoid fever and a possible order to move southward. Nothing has been heard to indicate that any of the Second corps has been selected to go to Porto Rico and it is believed by many here that the transfer of troops to Dun Loring indicates that the regiments will remain there some time. One of the surgeons at Fort Myer said that there are at least 10 cases of typhoid fever there. Most of them are not of a serious nature. Four new cases were reported yesterday, all from the Sixtieth New York.

Tired of Waiting For a Convey.

Washington, July 21.—General Miles telegraphed the war department late yesterday announcing the arrival from Tampa of the transports Tampasas and Neuces with about 600 men on board. These are supposed to include the District of Columbia engineers and an artillery battery. General Miles states that now he has 10 transports with him, and it is presumed they are laden with troops. He complains that the men are very tired waiting for their naval convey and says some of the horses have died from the effects of being taken aboard ship and kept there.

General Woodford Calls on the President.

Washington, July 21.—General Stewart L. Woodford, minister to Spain when the war broke out, called on the president late yesterday. The two were joined by Secretary of State Day and an informal talk on the Spanish situation was had. General Woodford refused to talk to reporters on our relations with Spain. Secretary Day said all he knew of peace negotiations he read in the papers.

\$3,000 For a Five-Month-Old Colt.

Lexington, Ky., July 21.—Charley Patterson, the man who developed Oranmore and Hamburg, yesterday bought a 5-month-old colt by Hanover, sire of Hamburg, out of Ben Eder's dam, for which he paid \$3,000. No suckling has brought such a price in years. The youngster is a very fine one.

Steamer Missing.

London, July 21.—The British bark Midas, Captain Messenger, which sailed from Nagasaki, Japan, on Feb. 14 for Portland, Or., has been posted by Lloyds as missing. The Midas was a steel vessel of 1,361 tons, built at Maryport, Eng., in 1895, whence she sailed. Her owners are Ritson & Co.

MUST NOW EXPLAIN

General Toral to Be Court-martialed For Giving Up Santiago.

HIS LETTER TO SHAFER

Said by Madrid Authorities to Contain an Untruth.

A PITIFUL CONDITION

Because of Want of Provision and Ammunition In Which the Spanish General Found Himself—Penalty For Surrendering Troops and Territory Not Under His Direct Command—Official Dispatches From Captain General Augusti and Blanco.

Madrid, July 21.—A semi-official note has been published here explaining the circumstances, from a Spanish standpoint, of the surrender of Santiago de Cuba. It declares that the letter which General Toral "is alleged to have written to General Shafter," is apocryphal, as the telegraph version "contains a statement which it is impossible for General Toral to have made, because it is untrue that his government authorized him to capitulate."

The note continues: "What happened was that the war minister received two telegrams from Captain General Blanco. The first described General Toral's position, which was most pitiful because of the want of provisions and ammunition. It also detailed the enemy's proposals. 'In the second telegram Captain General Blanco gave the terms of the capitulation and requested instructions. The war minister replied to both by telling Captain General Blanco to leave every initiative to General Toral, for it was impossible to recommend any other line of conduct. General Toral, accordingly, acted as he thought advisable and would explain before a court-martial the motives which induced him to capitulate.'

The military code prescribes life imprisonment for any officer who includes in the capitulation of his own forces other posts, which "though dependent upon his command—are not troops or places included in the action which caused the capitulation."

Minister Sagasta and General Correa, minister of war, declare that the latest news from the Philippines is of the most favorable character. General Correa's advice indicate that the insurgents are now displaying "only a lukewarm hostility toward the Spanish troops."

General Augusti's Dispositions.

Captain General Augusti sends an official dispatch asserting, under date of July 14, that while the blockade is becoming very strict, the enemy has lost heavily in several recent engagements, "by which the morale of the American forces has been weakened and the Spaniards have been greatly encouraged."

The dispatch alleges also that "the garrison is ready to fight to the death," and that General Monet and several officers, who had escaped from Matanzas, have arrived there.

Captain General Augusti concludes as follows: "Modestly and without exaggeration, which is contrary to my character, I have described with loyal candor the situation, to which I am conscientiously all my efforts for my country and my king."

An official dispatch from Captain General Blanco announces that the greatest enthusiasm prevails there, and that the feeling in favor of resisting the "Yankee" is universal. It further asserts that the commanders of the volunteer forces at a conference under the presidency of General Arolas, military governor of Havana, resolved to "exhaust their resources and die rather than surrender."

The American war ships, the dispatch says, are off Manzanillo, apparently awaiting instructions, but the bombardment has not been resumed.

MORAL COWARDICE.

Sagasta's Government Charged With Treachery to Make a Scapagoat of Toral.

London, July 21.—The Times editorially reproaching the Spanish government with "moral cowardice in endeavoring to screen its own mismanagement by pretending that General Toral has betrayed his country," says:

"It is incredible that Spain can hope for anything from Cuba, as it is impossible for Blanco as it was for Toral to fight against hunger and it is unlikely that the former will have anything else to fight with for some time to come. Neither can anything be hoped from European intervention, even if Commodore Watson's squadron comes, though its arrival would be an unwelcome spectacle to more than one European power."

"It may be assumed that Commodore Watson's authorization to visit the Philippines will not weaken the disposition at Berlin to cultivate friendly relations with America and to make light of the escapades of German ships at Manila."

SHIPMENTS TO SANTIAGO.

Government Will Probably Abolish Spanish Objectionable List.

Washington, July 21.—The officials of the treasury department are daily receiving numerous inquiries from exporters and others as to the regulations to govern the shipment of provisions, etc., to Santiago and Guantanamo, and especially as to whether articles prohibited under the Spanish customs law will be hereafter admitted. The officials have not been able so far to take the matter up for final determination, but the opinion is expressed that with the exception of oleomargarine, artificial and adulterated wines and objects offensive to morality, the entire list will be admitted into Cuba practically on the same basis and at substantially the same rates as they are admitted into the United States. The list includes arms of war of all kinds, including projectiles, ammunition, dynamite, etc.; sugar of all kinds; silver or copper money of foreign coinage; honey and molasses of all kinds; pharmaceutical preparations or secret remedies of unknown composition or whose formulas have not been published; saccharine (except for pharmaceutical purposes) and any substances to be used as food containing saccharine; tobacco, raw or manufactured, of foreign origin, except snuff and tobacco in carrels.

FIRST EXPEDITION.

Major General Wilson and His Command Off For Porto Rico.

Charleston, S. C., July 21.—With bands playing and 30,000 people cheering the first expedition to follow General Miles to Porto Rico got away from here last evening. The expedition is under command of Major General J. H. Wilson and will, when complete, consist of the Second and Third Wisconsin, the Sixteenth Pennsylvania regiments and two companies of the Sixteenth Illinois. The first two regiments are on the transports Grand Duchess and No. 30, respectively, and they are at sea. No. 21, carrying the Sixteenth Pennsylvania and the Illinois men, sailed this morning. Each of the ships carries a large quantity of supplies and on the No. 21 there are 1,000 head of mules and the wagon train of General Wilson's division.

The scene which accompanied the departure of the vessels from their docks was one of indescribable enthusiasm. Practically the entire population of the city was in evidence. As the vessels made the stream the bands of shipboard and ashore played national airs and the thousands of people cheered like mad. The expedition will sail direct for Porto Rico.

NO ORDERS YET.

Thirty Thousand Men May Go To Porto Rico From Chickamauga.

Chickamauga, Ga., July 21.—General Brooke and Colonel William Richards, adjutant general of the First corps, who went to Washington to confer with Secretary Alger upon the proposed Porto Rican expedition, has returned to Camp Thomas.

It is learned from excellent authority that it is the earnest desire of General Brooke that the entire First corps form the expeditionary force going from here. This would mean a departure from Chickamauga of about 30,000 volunteers. Advances are expected from Washington at once and upon their receipt it is probable that immediate orders will be issued to begin the movement.

There is still some question as to whether the corps will go as organized. There are some fine regiments in the Third corps that are thoroughly drilled and equipped and it is not improbable that some of these will be included in the force, being substituted for regiments that have all along been identified with the First corps.

Recommendations Not Made Public.

Washington, July 21.—The recommendations of General Brooke indicating what regiments he prefers for Porto Rico other than those whose selections have already been definitely announced, have not been made public at the war department. The reports which come from Quartermaster Humphrey indicate that it will be a comparatively easy task to supply the army in and about Santiago with subsistence stores, in marked contrast with the almost superhuman efforts necessary while the siege of the city was in progress.

Spanish Officers Short on Clothing.

Annapolis, Md., July 21.—The auxiliary cruiser Harvard arrived in the offing last evening with 34 additional Spanish officers, prisoners of the United States aboard. The new arrivals were embraced tenderly by their brother officers who arrived last Saturday and there was hardly a dry eye among the men as they greeted one another. Like the former arrivals the new contingent is very "short" on clothing, and many of them were dressed in the white duck fatigue uniform of the American soldier.

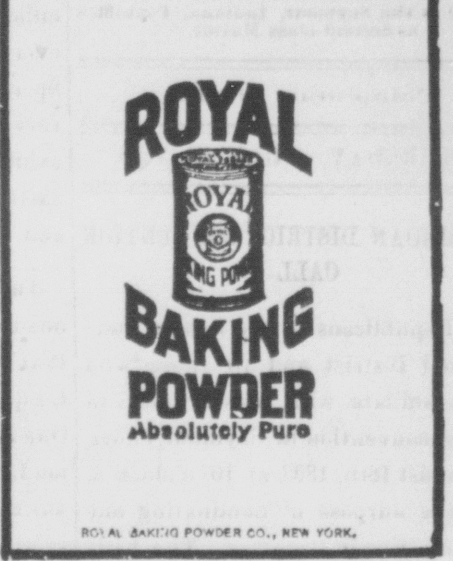

Believed to Have Been Captured.

St. Thomas, D. W. L., July 21.—The Compagnie Generale Transatlantique's steamer Olinda-Rodriguez, formerly the Francoenda, plying between Havre and Haytian ports, is now three days overdue from Porto Plata, Santo Domingo. It is supposed that she has been captured while attempting to run the blockade at San Juan de Porto Rico. After leaving San Juan on July 4 she was warned not to attempt to enter on her return voyage.

Order Revoked.

Washington, July 21.—The order sending 19 paymasters to Santiago to pay the troops under General Shafter has been revoked, it having been ascertained that there are not complete records and rolls of the army in Cuba to enable payment to be made.

DON'T LIKE IT.

London Chronicle Thinks Watson Had Better Stay at Home.

London, July 21.—The Daily Chronicle says editorially: "As strong supporters and sincere well-wishers of the United States we suggest a reconsideration of the decision to send Commodore Watson to Europe. It could not materially harm Spain and would only be likely to renege the Spaniards into an impervious obstinacy of endurance and a determination to suffer to all lengths. 'That is their national character. It was that which baffled Napoleon, who had land forces to overrun the whole country. At every point an American fleet could touch there would be danger of European complications.'"

DECLARED EPIDEMIC

Smallpox In Southeastern Kentucky Wide Spread.

Bowling Green, Ky., July 21.—The smallpox situation in Laurel, Clay and Jackson counties has become so serious as to induce the state board of health to issue a circular declaring the disease epidemic, particularly in Jackson county, where the board says it is widespread. Every class of population is affected by the disease.

The board says: "If every man, woman and child in southeastern Kentucky is vaccinated at once danger of a serious epidemic will be removed. Every person remaining unvaccinated is a menace not to themselves alone, but to the health and business welfare of their entire section. Children should be vaccinated when quite young, and older persons should be revaccinated every seventh year at least. This method of prevention is as cheap as it is safe and easy, when properly done with reliable virus."

The board expresses a determination to stamp out the disease at any cost, which must be borne by the county courts.

Suffered 20 Years.

MR. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

Has Already Thrown Off Its Graveyard Appearance.

Major General Wilson's Command Leaves Charleston for Porto Rico—Miles' Men Tired of Waiting for a Convoy—General Blanco Is Again Reported as Cut Off From Madrid by Cable—General Brooke's Recommendation as to Troops for the Porto Rican Invasion Not Made Public—General Woodford Calls on the President, but Refuses to Be Interviewed on the Spanish Situation.

Washington, July 21.—Arrangements practically were concluded by the government last night for the transportation of the Spanish prisoners at Santiago from Cuba to Spain.

The contract was awarded to the Spanish Transatlantic company, represented by J. M. Ceballos & Co., of New York. The company agrees to carry the prisoners from Cuban ports to Spain at the rate of \$30 for each enlisted man and \$55 for each commissioned officer, subsistence to be furnished by the company on the army ration basis, as provided for in the government's advertisement for bids.

The award provides also that the company shall have five ships at Santiago in nine days from today, two in 17 days from today and enough to complete the transportation of the prisoners in 21 days from today.

On the basis of 24,000 enlisted men and 1,000 officers, it will cost the government \$535,000 to transport the prisoners.

The ships will fly the colors of Spain and will be manned, probably entirely, by Spanish crews. It was remarked as one of the curious developments of the war that the United States government should enter into a friendly contract with a company, many of whose vessels are auxiliaries to the Spanish navy and some of which have been captured or destroyed by the navy of the United States.

PORTO RICAN INVASION.

Arrangements Being Pushed by the War and Navy Departments.

Washington, July 21.—The war and navy departments are now engaged in making all of the arrangements for the dispatch of the Porto Rican expedition and Watson's eastern squadron. There

Oh, what a warm welcome the first little traveler whom Heaven guides to the door of a woman's heart receives from the happy mother. Every thought and care is given to the comfort and well-being of the new comer after it has entered into the portals of life and taken its place at the family fireside.

Yet during the time when baby is expected few women do all they should to insure the little one's constitution.

Dr. Pierce's Favorite Prescription is a purgative, weakly, sickly baby yet unless she herself is entirely healthy in the special, delicate structure which makes motherhood possible, the baby is certain to suffer in some way for her weakness or neglect.

The surest way to avoid this is for the mother to reinforce her own strength by the use of Dr. Pierce's Favorite Prescription during the time of anticipation. It will make her perfectly healthy. It will lighten and brighten the time of waiting. It will make the ordeal of motherhood absolutely safe and comparatively free from pain and will insure a strong, healthy constitution for the baby.

Mrs. Nannie J. Taylor, of Lovelace, Hill Co., Texas, writes: "I am the mother of eight children. I suffered from female weakness. I tried physicians with no avail. When I last became with child I saw the advertisement of Doctor Pierce's Favorite Prescription. I bought two bottles and took according to directions. When baby was born I had a very easy time and have not suffered one hour since from female weakness. Baby is as fat and healthy as can be."

has occurred one of those natural pauses in the progress of the campaign incident to the completion of one set of operations and the initiation of another. There being no possibility of the receipt of news of a great battle or of a surrender there is less excitement and less evidence of nervous strain than for weeks past.

General Miles' expected departure was again deferred. The explanation given was that there was difficulty experienced at Santiago in securing the naval convoy for the expedition. It is known, however, in addition that the president himself has restrained General Miles to the extent of adjourning him in earnest terms not to commit the folly of starting for Porto Rico without the most complete preparation.

The government has profited by the lessons taught by the Santiago expedition. Aside from the actual loss of life that might be expected to result from a badly calculated start, it is realized that our relations with some of the European powers would be in a small measure at least impaired by the adverse moral effect created by anything approaching defeat for the American arms at this stage of the war. Therefore, it is certain that, so far as the department can prevent, General Miles' soldiers will not run short of food, of tents to protect them from the tropical rains, nor of the means of transportation that were so deficient at the beginning of the Santiago movement.

According to the calculations at the navy department Admiral Dewey's fleet at Cavite should now be reinforced by the coast defense vessel Monterey, which, with her tender and collier, the Brutus has been about 20 days out from Honolulu. With the addition of this fine and powerful monitor, Dewey will be amply able to take care of himself so long as the naval forces in the Philippines maintain the relative proportion they now occupy.

The war department was agreeably surprised at the number of bids received in answer to its proposals for transporting the Spaniards now at Santiago to Cadiz. The terms offered by some companies were regarded as reasonable. The bid from the Spanish Steamship company was a surprise to the department officials, and at least one of them thought that it might be good policy for the government to avail of this offer.

Dr. Greenleaf's last report to Secretary Alger from the American camp at Santiago came late yesterday afternoon and was to effect that while the yellow fever was widely spread among the troops it was very mild in type. General Duffield, who has been suffering from the disease, was reported to be improving.

LIKE MAGIC.

Santiago Has Emerged From Her Graveyard Appearance to Life and Energy.

Santiago de Cuba, July 21.—The city today presents a bright and cheerful picture to what it did a few days ago. Over 30 steamers flying the stars and stripes lie proudly in or near the harbor. Small boats are plying briskly to and fro on the blue waters. Several large steamers—the State of Texas, Leona and Aransas—are alongside the wharves busily engaged in unloading their large cargoes of supplies and provisions.

In short, everything denotes bustle and activity. To the graveyard appearance of the city when it surrendered has succeeded a scene of life and energy, traffic and general activity. The immense sheds along the waterfront are already packed with merchandise and the large stores rented along Marina street are busy receiving goods, which are being steadily unloaded. Everywhere there are signs of a revival of commercial activity and prosperity.

The change in the appearance of the city is kaleidoscopic and a couple of days, when further shipments arrive, will suffice for the normal business to revive.

The trades and businesses opened their doors for the first time yesterday, cleared their warehouses and made ready for the receipt of goods. All the stores are open today by General McKibbin's orders, but the saloons remain closed for the present in order to avoid the possibility of a clash between the soldiers in case of drunkenness.

The electric light plant is working.

The pawn shops are doing a rushing business, their counters being crowded by people of all sorts of color and conditions, pawning heirlooms, clothes, dresses and furniture. Officers tender their medals, spurs and swords, and civil employees offer their tortoise shell, gold headed canes of office for a mere song, which are in turn bought at fancy prices by American soldiers, officers or newspaper correspondents as relics of the war. There have been more machetes sold to our men as souvenirs than were laid down on the morning of the surrender, and crosses, service stripes and orders are cheerfully parted with for American cash.

BLANCO'S DISPATCHES.

Several of His Ciphers Drift Into This Country.

Washington, July 21.—Two days ago General A. W. Greeley, chief signal officer, cabled instructions to his officers in Santiago to seal up and place a guard over the three cable lines connecting Santiago with Cienfuegos, whence, by a land line, communication is established with Havana. Last night General Greeley was informed that his orders had been carried into effect.

The closing of the Cienfuegos cables absolutely isolates Havana and General Blanco from Madrid. Blanco's only means of communicating with the Madrid government now is by the Key West cable, which is under the strictest censorship by the government of the United States.

As a result of the sealing of the Santiago-Cienfuegos cables, several cipher dispatches passing between General

Blanco and the Spanish government drifted into this country yesterday. It is scarcely necessary to say that they did not reach their destination.

Expect to Remain at Dun Loring.

Washington, July 21.—Interest at Camp Alger was divided yesterday among the subjects of leaving camp, typhoid fever and a possible order to move southward. Nothing has been heard to indicate that any of the Second corps has been selected to go to Porto Rico and it is believed by many here that the transfer of troops to Dun Loring indicates that the regiments will remain there some time. One of the surgeons at Fort Myer said that there are at least 10 cases of typhoid fever there. Most of them are not of a serious nature. Four new cases were reported yesterday, all from the Sixtieth New York.

Tired of Waiting for a Convoy.

Washington, July 21.—General Miles telegraphed the war department late yesterday announcing the arrival from Tampa of the transports Tampas and Neuses with about 600 men on board. These are supposed to include the District of Columbia engineers and an artillery battery. General Miles states that now he has 10 transports with him, and it is presumed they are laden with troops. He complains that the men are very tired waiting for their naval convoy and says some of the horses have died from the effects of being taken aboard ship and kept there.

General Woodford Calls on the President.

Washington, July 21.—General Stewart L. Woodford, minister to Spain when the war broke out, called on the president late yesterday. The two were joined by Secretary of State Day and an informal talk on the Spanish situation was had. General Woodford refused to talk to reporters on our relations with Spain. Secretary Day said all he knew of peace negotiations he read in the papers.

\$3,000 For a Five-Month-Old Colt.

Lexington, Ky., July 21.—Charles Patterson, the man who developed Orin and Hamburg, yesterday bought a 5-month-old colt by Hanover, sire of Hamburg, out of Ben Eder's dam, for which he paid \$3,000. No suckling has brought such a price in years. The youngster is a very fine one.

Steamer Missing.

London, July 21.—The British bark Midas, Captain Messenger, which sailed from Nagasaki, Japan, on Feb. 14 for Portland, Or., has been posted by Lloyds as missing. The Midas was a steel vessel of 1,361 tons, built at Maryport, Eng., in 1895, whence she sailed. Her owners are Ritson & Co.

Pinegre Calls on Alger.

Washington, July 21.—Governor Pinegre of Michigan, is in Washington. He called at the war department yesterday afternoon and had a long talk with Secretary Alger.

MUST NOW EXPLAIN

General Toral to Be Court-martialed For Giving Up Santiago.

HIS LETTER TO SHAFER

Said by Madrid Authorities to Contain an Untruth.

A PITIFUL CONDITION

Because of Want of Provision and Ammunition in Which the Spanish General Found Himself—Penalty For Surrendering Troops and Territory Not Under His Direct Command—Official Dispatches From Captain General Augusti and Blanco.

Madrid, July 21.—A semi-official note has been published here explaining the circumstances, from a Spanish standpoint, of the surrender of Santiago de Cuba. It declares that the letter which General Toral "is alleged to have written to General Shafter," is apocryphal, as the telegraph version "contains a statement which it is impossible for General Toral to have made, because it is untrue that his government authorized him to capitulate."

The note continues: "What happened was that the war minister received two telegrams from Captain General Blanco. The first described General Toral's position, which was most pitiful because of the want of provisions and ammunition. It also detailed the enemy's proposals.

"In the second telegram Captain General Blanco gave the terms of the capitulation and requested instructions. The war minister replied to both by telling Captain General Blanco to leave every initiative to General Toral, for it was impossible to recommend any other line of conduct. General Toral, accordingly, acted as he thought advisable and would explain before a court-martial the motives which induced him to capitulate."

The military code prescribes life imprisonment for any officer who induces in the capitulation of his own forces other posts, which "though dependent upon his command—are not troops or places included in the action which caused the capitulation."

Senor Sagasta and General Correa, minister of war, declare that the latest news from the Philippines is of the most favorable character. General Correa's advice indicate that the insurgents are now displaying "only a lukewarm hostility toward the Spanish troops."

General Augusti's Dispatches.

Captain General Augusti sends an official dispatch asserting, under date of July 14, that while the blockade is becoming very strict, the enemy has lost heavily in several recent engagements, "by which the morale of the American forces has been weakened and the Spaniards have been greatly encouraged."

The dispatch alleges also that "the garrison is ready to fight to the death," and that General Monet and several officers, who had escaped from Matanzas, have arrived there.

Captain General Augusti concludes as follows: "Modestly and without exaggeration, which is contrary to my character, I have described with loyal candor the situation, to which I am concentrating all my efforts for my country and my king."

An official dispatch from Captain General Blanco announces that the greatest enthusiasm prevails there, and that the feeling in favor of resisting the "Yankee" is universal. It further asserts that the commanders of the volunteer forces at a conference under the presidency of General Arolas, military governor of Havana, resolved to "exhaust their resources and die rather than surrender."

The American war ships, the dispatch says, are off Manzanillo, apparently awaiting instructions, but the bombardment has not been resumed.

MORAL COWARDICE.

Sagasta's Government Charged With Trying to Make a Scapout of Toral.

London, July 21.—The Times editorially reproaching the Spanish government with "moral cowardice in endeavoring to screen its own mismanagement by pretending that General Toral has betrayed his country," says:

"It is incredible that Spain can hope for anything from Cuba, as it is impossible for Blanco as it was for Toral to fight against hunger and it is unlikely that the former will have anything else to fight for some time to come. Neither can anything be hoped from European intervention, even if Commodore Watson's squadron comes, though its arrival would be an unwelcome spectacle to more than one European power."

"It may be assumed that Commodore Watson's authorization to visit the Philippines will not weaken the disposition at Berlin to cultivate friendly relations with America and to make light of the escapades of German ships at Manila."

SHIPMENTS TO SANTIAGO.

Government Will Probably Abolish Spanish Objectionable List.

Washington, July 21.—The officials of the treasury department are daily receiving numerous inquiries from exporters and others as to the regulations to govern the shipment of provisions, etc., to Santiago and Guantanamo, and especially as to whether articles prohibited under the Spanish customs law will be hereafter admitted. The officials have not been able so far to take the matter up for final determination, but the opinion is expressed that with the exception of oleomargarine, artificial and adulterated wines and objects offensive to morality, the entire list will be admitted into Cuba practically on the same basis and at substantially the same rates as they are admitted into the United States. The list includes arms of war of all kinds, including projectiles, ammunition, dynamite, etc.; sugar of all kinds; silver or copper money of foreign coinage; honey and molasses of all kinds; pharmaceutical preparations or secret remedies of unknown composition or whose formulas have not been published; saccharine (except for pharmaceutical purposes) and any substances to be used as food containing saccharine; tobacco, raw or manufactured, of foreign origin, except snuff and tobacco in carrels.

FIRST EXPEDITION.

Major General Wilson and His Command Off For Porto Rico.

Charleston, S. C., July 21.—With hands playing and 30,000 people cheering the first expedition to follow General Miles to Porto Rico got away from here last evening. The expedition is under command of Major General J. H. Wilson and will, when complete, consist of the Second and Third Wisconsin, the Sixteenth Pennsylvania regiments and two companies of the Sixteenth Illinois. The first two regiments are on the transports Grand Duchess and No. 30, respectively, and they are at sea. No. 31, carrying the Sixteenth Pennsylvania and the Illinois men, sailed this morning. Each of the ships carries a large quantity of supplies and on the No. 21 there are 1,000 head of mules and the wagon train of General Wilson's division.

The scene which accompanied the departure of the vessels from their docks was one of indescribable enthusiasm. Practically the entire population of the city was in evidence. As the vessels made the stream the bands of shipboard and ashore played national airs and the thousands of people cheered like mad. The expedition will sail direct for Porto Rico.

NO ORDERS YET.

Thirty Thousand Men May Go To Porto Rico From Chickamauga.

Chickamauga, Ga., July 21.—General Brooke and Colonel William Richards, adjutant general of the First corps, who went to Washington to confer with Secretary Alger upon the proposed Porto Rican expedition, has returned to Camp Thomas.

It is learned from excellent authority that it is the earnest desire of General Brooke that the entire First corps form the expeditionary force going from here. This would mean a departure from Chickamauga of about 30,000 volunteers.

Advices are expected from Washington at once and upon their receipt it is probable that immediate orders will be issued to begin the movement.

There is still some question as to whether the corps will go as organized. There are some fine regiments in the Third corps that are thoroughly drilled and equipped and it is not improbable that some of these will be included in the force, being substituted for regiments that have all along been identified with the First corps.

Recommutations Not Made Public.

Washington, July 21.—The recommendations of General Brooke indicating what regiments he prefers for Porto Rico other than those whose selections have already been definitely announced, have not been made public at the war department. The reports which come from Quartermaster Humphrey indicate that it will be a comparatively easy task to supply the army in and about Santiago with subsistence stores, in marked contrast with the almost superhuman efforts necessary while the siege of the city was in progress.

Spanish Officers Short on Clothing.

Annapolis, Md., July 21.—The auxiliary cruiser Harvard arrived in the offing last evening with 34 additional Spanish officers, prisoners of the United States aboard. The new arrivals were embraced tenderly by their brother officers who arrived last Saturday and there was hardly a dry eye among the men as they greeted one another. Like the former arrivals the new contingent is very "short" on clothing, and many of them were dressed in the white duck fatigue uniform of the American soldier.

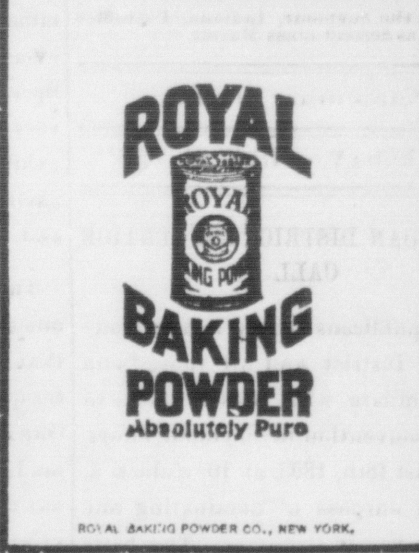

Believed to Have Been Captured.

St. Thomas, D. W. I., July 21.—The Compagnie Generale Transatlantique's steamer Olinde-Rodriguez, formerly the Francada, plying between Havre and Haytian ports, is now three days overdue from Porto Plata, Santo Domingo. It is supposed that she has been captured while attempting to run the blockade at San Juan de Porto Rico. After leaving San Juan on July 4 she was warned not to attempt to enter on her return voyage.

Order Revoked.

Washington, July 21.—The order sending 19 paymasters to Santiago to pay the troops under General Shafter has been revoked, it having been ascertained that there are not complete records and rolls of the army in Cuba to enable payment to be made.

DON'T LIKE IT.

London Chronicle Thinks Watson Had Better Stay at Home.

London, July 21.—The Daily Chronicle says editorially: "As strong supporters and sincere well-wishers of the United States we suggest a reconsideration of the decision to send Commodore Watson to Europe. It could not materially harm Spain and would only be likely to reunite the Spaniards into an impervious obstinacy of endurance and a determination to suffer to all lengths. "That is their national character. It was that which baffled Napoleon, who had land forces to overrun the whole country. At every point an American fleet could touch there would be danger of European complications."

DECLARED EPIDEMIC

Smallpox in Southeastern Kentucky Wide Spread.

Bowling Green, Ky., July 21.—The smallpox situation in Lantrel, Clay and Jackson counties has become so serious as to induce the state board of health to issue a circular declaring the disease epidemic, particularly in Jackson county, where the board says it is widespread. Every class of population is affected by the disease.

The board says: "If every man, woman and child in southeastern Kentucky is vaccinated at once danger of a serious epidemic will be removed. Every person remaining unvaccinated is a menace not to themselves alone, but to the health and business welfare of their entire section. Children should be vaccinated when quite young, and older persons should be revaccinated every seventh year at least. This method of prevention is as cheap as it is safe and easy, when properly done with reliable virus."

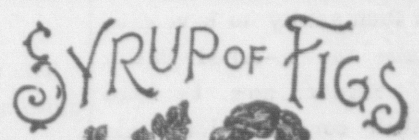

The board expresses a determination to stamp out the disease at any cost, which must be borne by the county courts.

Spain is looking for a scapegoat for the Santiago surrender and it now looks very much as if General Toral would be court-martialed for doing what he was compelled to do when he yielded to victorious American arms.

The American army and navy have both vindicated themselves in the eyes of Europe and the management of the war is eliciting a great deal of praise from those who were only recently inclined to criticize our forces quite severely. European officials recognize that the United States is too strong a power to be lightly talked about and the word has been quietly passed to the press of Europe which has shown a remarkable change in the spirit of its criticism.

Even the newspapers who were so vehement in their anxiety to have congress recognize the so-called Cuban government, cannot now be loud enough in their congratulations that the country escaped the evils which would have followed such a short-sighted course. They forget, however, to mention the fact that the credit for the defeat of that course is almost wholly due to President McKinley, who insisted in the face of congress that it would be almost ruinous for this country to adopt such a course and thus tie its hands for future action.

A letter received at Boston by the family of one of Dewey's men breathes the spirit that seems to permeate the entire force under the Vermonters' command. He says: "I hope to hear that something has been done on the other side of the world soon, for if they don't, we will have to come around with our little fleet and blow all the Spaniards out of the water, and we could do it with Admiral Dewey leading us." It takes a great commander to inspire such a spirit in his men and the commander who has such loyalty among his men is indeed a great one.

The New Albany Public Press and some other democratic papers continue to demand the withdrawal of Judge McCabe from the democratic state ticket. They don't like his decision on the township trustee case.

European newspapers are full of praise for President McKinley since the victory at Santiago. They recognize that he was consulted by the commanding general during the negotiations for surrender and his wise, firm, yet conciliatory policy has been received with every evidence of favor. The London Spectator, which voices English opinion very largely, describes the president as exhibiting many of Lincoln's qualities, particularly his remarkable decision and nerve.

The world is beginning to realize that one secret of American naval success is that our battle ship armor is of a better quality than that on foreign ships. Our machinery is as fine as can be made. The Oregon came around without repairs, and has been in active service ever since; the ships of Dewey's squadron were reported all right; the Gulf squadron has been in active duty for four months now and there has been no dry-docking for repairs, save through one collision with an outside ship. It is a great showing.

The dispatches indicate shockingly unsanitary conditions at Santiago, and no doubt our military authorities will take prompt measures to improve them. The same or worse condition will be found to exist at Havana. Spanish misrule and medieval military methods have made pest holes of every Cuban port, and compelled the United States to be constantly on the alert against the introduction of yellow fever. One of the first steps in the redemption of Cuba and its restoration to the possibilities of civilization will be the sanitary regeneration of its cities—Journal.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three years she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept at night, and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hannick & Co., of Shelby, N. C. Trial bottles free at W. F. Peter's Drug Store. Regular size 50c and a dollar. Every bottle guaranteed.

The Commiskey Sunday school will unite with all other Sunday schools in the county and have a celebration and picnic at the grove of Herman Kail at Commiskey, Saturday, Aug. 6. An invitation is extended to all. Bring your baskets well filled and enjoy yourselves among old and young.

The Bartholomew county orphans' home at Columbus is caring for 69 children. The institution was opened February 13, 1893, and up to the present time 110 children have been admitted. Of these six have died and homes been found for thirty-five of them.

No door is thick enough to keep out the newspaper and its advertising; no chamber is too remote, or too quiet, for the favorite family paper, no surveillance is so strict but the newspaper is admitted; and it brings its message of wars and rumors of wars; of elections, accidents, marriages, births and deaths—and advertisements—Lynn (Mass) Item.

MOTHER! There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it, so assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

MOTHER'S FRIEND

"My wife suffered more in ten minutes with either of her other two children than she did altogether with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a MOTHER," says a customer.

On the Atlantic Coast.

In a letter to one of our citizens Mrs. M. C. Carpenter, who with Mrs. G. V. Sawyer and children, is spending the summer in the east, says: "I am greatly enjoying the cottage by the Atlantic and often wish I could share with my Seymour friends these grand and beautiful sights. Just now the ocean seems to have adopted Uncle Sam's favorite lead color but when the clouds are gone the tints will be varied by sun or moonlight, by wind and wave, which never fail charm."

THE 161ST REGIMENT

Officers Appointed by
Backus and Peterson.

THE STATE'S WAR CLAIMS

Colonel Carter Father-in-Law and Son-in-Law to the Same Man—Hung Himself In His Barn—Prostrated over His Crime—Murderous Attack on an Old Lady.

Indianapolis, July 21.—Lieutenant Colonel Backus and Major Peterson, commanders of the First and Third battalions of the One Hundred and Sixty-first Indiana regiment, have announced the appointment of their battalion officers as follows:

First Battalion—Adjutant, George M. Silverthorn, first lieutenant of Company A of Hammond; sergeant major, Fred Dofres, sergeant of Company A of Hammond.

Third Battalion—Adjutant, George Goodrich, first lieutenant of Company C of Shelbyville; sergeant major, A. R. Brown, sergeant of Company H of Kishwaukee.

Major Magraw has not yet announced the officers of his battalion.

LIQUOR MEN.

Indiana State League Convention—Moore and Nicholson Laws.

Muncie, Ind., July 21.—Large delegations were here yesterday to attend the Indiana State Liquor league convention. Important matters were considered. One was the order of the brewers compelling the saloonkeepers to bear all of the war tax on beer. The league insists that the brewers pay one-half. Steps are to be taken to get the coming legislature to either modify or repeal obnoxious laws, such as the Moore and Nicholson laws. The league will support legislative candidates who will pledge themselves to this end. A membership of 34,000 is claimed for the league.

SLIGHTLY MIXED.

Colonel Carter Father-in-Law and Son-in-Law to the Same Man.

Lawrenceburg, Ind., July 21.—Colonel Perry Carter has been married for the fifth time, although but 50 years of age. The colonel was married twice to one woman, but divorced from her both times. Mrs. Carter No. 5 was Miss Emma Acry, a belle of Boone county, Kentucky. At the same time David Gray was married to Martha Carter, a daughter of the much married colonel, who by the marriage becomes both the father-in-law and son-in-law of Mr. Gray.

WAR CLAIMS.

State Officials Receive Notice to File Them.

Indianapolis, July 21.—The state officials have received notice from the secretary of war that "all claims for expenses incurred by the state in aiding the United States to raise the volunteer army in the existing war with Spain by subsisting, clothing, supplying, equipping, paying and transmitting men of the state who were afterward accepted into the volunteer army of the United States, should be forwarded to the secretary of the treasury for audit and settlement by the accounting officers of the treasury."

MURDEROUS ATTACK.

Old Lady Assaulted With a Club—Assault Arrested.

Bedford, Ind., July 21.—Felix Lantz, living in the quarry district, is under arrest for a murderous attack on Mrs. Peter Diehl, whom he struck over the head with a club. He was arrested at Bloomington. Mrs. Diehl is quiet old and the injury is serious. Lantz also stands accused of stealing a watch from Mr. Diehl, and he has been committed in default of \$1,000.

Died In the Street.

Muncie, Ind., July 21.—Peter Manning of Marion, employed at Ball Brothers' glass works in this city, died on the street yesterday from the effects of a protracted spree. He had been under guard for two weeks, but escaped. He was 30 years old and leaves a wife and two children at Marion.

Prostrated Over His Crime.

Newcastle, Ind., July 21.—Charles Frenshall who killed George Bramble in a quarrel over a ball game on Sunday, lies prostrated in jail. He has taken neither food nor drink, neither has he slept since the killing.

Can Get No Offer For His Plums.

Greentown, Ind., July 21.—The markets in this part of the state are overstocked with berries and small fruit. One farmer reports that he has 500 bushels of fine plums and cannot get an offer for them.

Hung Himself In His Barn.

Jamestown, Ind., July 21.—Fred Kress, a German farmer near here, suicided yesterday by hanging himself in his barn. No cause given.

Indiana Postmasters.

Washington, July 21.—Indiana postmasters were appointed yesterday as follows: Pigeon, Perry Phillips; White-land, Hugh E. Johnson.

J. B. Cheadle For Congress.

Frankfort, Ind., July 21.—Joseph B. Cheadle was nominated for congress by the Ninth district Democracy yesterday over John McCordie by a vote of 82 to 35.

PORTO RICO EXPEDITION

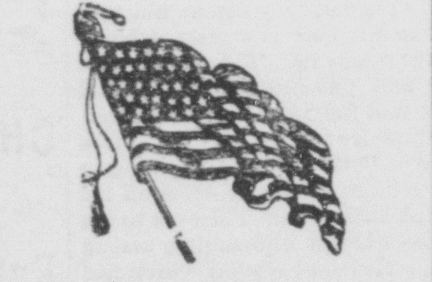

EXPECTATION THAT IT WILL BE OFF AT ONCE.

Civil Order Being Restored Rapidly At Santiago.—Watson's Squadron.

The expedition to Porto Rico is repeating the experience of the expedition to Santiago in the matter of getting started. When last heard from Gen. Miles was still at Guantanamo, fretting over the delay. The war department has been trying to rush matters, and Washington officials hoped last night that the start would be made immediately. Rear Admiral Sampson has also been ordered to start for Porto Rico at once. It is believed by many that General Miles and the expedition are already well on their way but that the reports are held back by the war department.

Civil order has been restored in Santiago, and the only trouble now is over the food supply. Several vessels are now in the harbor, but have not discharged their cargoes, as the customs regulations had not been fully arranged.

Under the new orders to Commodore Watson he is to have a fleet which will still further impress Europe with the size and ability of the American navy, a result that may be of importance if any of the Powers are planning to have a say in regard to the terms of peace with Spain. Reinforced by the Monterey and Monadnock, Rear Admiral Dewey can hold Germany in check in case of any covert act, while Watson will be in position to hasten to his rescue from European waters should other Powers interfere. Commodore Schley, with the Brooklyn, may also join the squadron.

From dispatches sent in by M. J. Gen. Shafter, the authorities believe that the yellow fever among the troops is thoroughly under control. Gen. Shafter has cabled asking the immediate dispatch of two immune regiments for garrison duty, in order that the remaining troops may be removed from the zone of infection.

Lieut. Miley, of Gen. Shafter's staff, with a troop of cavalry for escort, left Santiago Tuesday to make the rounds of the surrendered district and receive the formal surrender of every body of

Spanish troops in the district. A Madrid dispatch says that the Spanish commander at Guantanamo denies the right of Toral to include the Guantanamo troops in his capitulation.

No Liquor for the 150th.

A letter from Col. John T. Barnett, commanding the One-hundred-and-fifty-ninth Indiana, at Camp Alger, has been received by Governor Mount. Colonel Barnett states that since he received the petition signed by one thousand residents of Indianapolis he has placed a guard in front of every place where intoxicating drinks are sold, and no members of his regiment are allowed to enter. He says that two cases of drunkenness in the regiment have been reported. In other regiments, he writes, drunkenness is common, and the "average man who is absent without leave of absence is on a protracted drunk in Washington."

PORTO RICO EXPEDITION.

EXPECTATION THAT IT WILL BE OFF AT ONCE.

Civil Order Being Restored Rapidly At Santiago.—Watson's Squadron.

The expedition to Porto Rico is repeating the experience of the expedition to Santiago in the matter of getting started. When last heard from Gen. Miles was still at Guantanamo, fretting over the delay. The war department has been trying to rush matters, and Washington officials hoped last night that the start would be made immediately. Rear Admiral Sampson has also been ordered to start for Porto Rico at once. It is believed by many that General Miles and the expedition are already well on their way but that the reports are held back by the war department.

Civil order has been restored in Santiago, and the only trouble now is over the food supply. Several vessels are now in the harbor, but have not discharged their cargoes, as the customs regulations had not been fully arranged.

Under the new orders to Commodore Watson he is to have a fleet which will still further impress Europe with the size and ability of the American navy, a result that may be of importance if any of the Powers are planning to have a say in regard to the terms of peace with Spain. Re-inforced by the Monterey and Monadnock, Rear Admiral Dewey can hold Germany in check in case of any covert act, while Watson will be in position to hasten to his rescue from European waters should other Powers interfere. Commodore Schley, with the Brooklyn, may also join the squadron.

From dispatches sent in by Major Gen. Shafter, the authorities believe that the yellow fever among the troops is thoroughly under control. Gen. Shafter has cabled asking the immediate dispatch of two immune regiments for garrison duty, in order that the remaining troops may be removed from the zone of infection.

Lieut. Miley, of Gen. Shafter's staff, with a troop of cavalry for escort, left Santiago Tuesday to make the rounds of the surrendered district and receive the formal surrender of every body of

Spanish troops in the district. A Madrid dispatch says that the Spanish commander at Guantanamo denies the right of Toral to include the Guantanamo troops in his capitulation.

LESSONS ON LIVING.

What is Taught by Graves Filled With Victims of Kidney Troubles.

Scientific Research has Revealed a New Remedy and its Trials by the Public Has Proven its Value.

Prevention is better than cure—and sometimes if prevention is neglected there is no cure possible. Careless people get in the grip of frightful diseases that will drag them down through days and nights of pain, to the grave because they neglect the common symptoms that indicate the danger of Bright's disease, diabetes, and various kidney complaints. Modern ways of living, especially in eating and drinking, have made kidney troubles terribly common, and the increase in death from this cause has led to the latest kinds of research by scientists to discover what remedy nature has provided.

After a thorough trial, thousands of cures have proven that the discovery of Morrow's Kidneys will mark an epoch in the treatment of kidney troubles, derangement of the kidneys. They are unlike any other remedy in the world. Unlike many of the so-called kidney cures, Morrow's Kidneys acts once, so that a long course of treatment is not needed. This feature of the new remedy is well illustrated by the case of W. H. Meyers, a well-known resident of Springfield, Ohio, living at 181 Warder Street. Mr. Meyers says: "For a long time I suffered with kidney and urinary troubles. I had such a severe backache, and such a burning sensation when I passed urine, that I was unable to do anything. I tried many remedies, but nothing gave relief till I tried Morrow's Kidneys, and one box quickly and completely cured me, and I have had no return of the trouble. Morrow's Kidneys are surely a wonderful kidney remedy, and I advise all who are afflicted with kidney troubles to use them and be quickly cured."

The lesson that is taught by the graves of the thousands of victims of kidney complaints is this: "Don't neglect a backache, don't neglect headaches, excitability of temper, nervousness. They are signs of diseased kidneys, which, if neglected, may lead to deadly disease. One box of Morrow's Kidneys will work wonders in improving the tone of your health."

You can get Morrow's Kidneys from all dealers at 25 cents a box, or \$2.50 for six boxes. Sent postpaid. Care of John Morrow & Co., Chemists, Springfield, Ohio, upon receipt of price.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following "This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters, and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky." Sold W. F. Peter, Druggist.

RAILROAD RUMBLINGS

The Pennsylvania railroad company has come to the conclusion that the train newsboys are a nuisance, and has issued orders not to permit them on through trains hereafter.

Arthur Graessle, clerk at the B. & O. S. W. freight depot, is sick with malarial trouble and Sam Jackson is filling his place.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. W. Milhous.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist, Will send Free, to the Afflicted, Three B. O. S. W. Ry. S. I. Ry. Covered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to offer freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 98 Pine Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

The Emperor Constantine's Conversion From Rome to Constantinople.

The removal of the Imperial capital from Rome to Byzantium was one of the most decisive events in record—a signal monument of foresight, genius and will. Madrid, St. Petersburg and Berlin are also capital cities created by the act of a powerful ruler. But none of these foundations can compare in scale and importance with the tremendous task of moving the seat of empire 1,000 miles to the east, from the center of Italy to the coast of Asia, from a Latin to a Greek city, from a pagan to a Christian population. The motives which impelled Constantine to this momentous step were doubtless complex. Since the time of Trajan Rome had not been the constant residence of the emperors, except of Antoninus Pius, nor the regular seat of government. Since the time of Diocletian Rome had been abandoned as the official center of the empire. Many places east of it had been tried, and Constantine, when resolved on the great change, seriously contemplated two, if not three, other sites. It had long been agreed that the Imperial seat must be transferred toward the east, and there was an instinctive sense that the valley of the Tiber was no longer safe from the incessant onward march of the Teutonic nations in arms.

The tendency was to get somewhere south of the Danube and within reach of Asia Minor and the Euphrates. The greater chiefs had all felt that the empire must be recast, both politically and spiritually. By the fourth century it was clear that the empire must break with the rooted prejudices that surrounded the senate of Rome and the gods of the capital. And Constantine, the half-conscious and half-convinced agent of the great change—the change from the ancient world to the modern world, from polytheism to Christianity—saw in the church and bishop of Rome a power which would never be his creature. Dante tells us that "Cesar became a Greek in order to give place to the Roman pastor." There is much in this, but it is not the whole truth, for Caesar might have become a Spaniard, or a Gaul, or an Illyrian. Dante might have added that Caesar became an Oriental in order to give place to the Goth. Constantinople from the first was a Christian city, with an orthodox church, but it was a church that was from the first a department of the state.—Fortnightly Review.

The Millionaire's Eagle Eye.

Another story illustrative of the daily life of a Chicago millionaire may help to explain why some people have more money than others.

This millionaire invited a visitor from another city to meet him at a certain hour and accompany him to the stockyard, where he has large interests.

The millionaire rode up in a sidecar buggy somewhat the worse for mud and wear, drawn by a shaggy but active horse. He explained that before starting for the yard he would have to go to one of the large banks down town, as he was on the board which regulated loans, and he had to pass on an application for a loan of \$500,000.

They stepped in front of the bank, and the rich man hurried in and remained several minutes. He came out on a run, and they started rattlingly bang for the stockyards and packingtown.

When they arrived and were entering the packing house, they saw an old man sorting out into barrels a heap of bones and fatty remnants. The bones were trimmed and put into one barrel and the flesh and fat into another barrel. The millionaire owner of the place walked over to the workman and began asking questions. Then he drew off his coat, rolled back his shirt sleeves to the shoulder and began rummaging among the bones. He found several which had not been properly stripped, and the workman received a scolding which he will remember all his life.

The stripping of those bones was just as important as the finding of \$500,000.—Chicago Record.

ORIENTAL EYES.

Their Much Lamented Beauty Due to False Modes of Living.

An esteemed correspondent of The Woman's Arena writes: "May not the much lamented largeness and luster of the oriental eye be due to false modes of living and to a low grade of civilization?"

In the first place these charms are never found among the working classes or among the tillers of the soil. They belong to the harem and to the harem civilization.

I have examined the women's quarters in Constantinople and Cairo, in Aden and Bombay, in Calcutta and Japan, and even in Hongkong and Canton, and in nearly every instance the women's rooms were small and dark. Where there were windows there were mere slits in the wall, which did not allow any direct light to enter.

The doorway was small and the door was solid and nearly always closed. The lamp was usually a taper and sometimes a candle. The room or rooms looked out upon a long hall or corridor, which was also dark and gloomy, and this in turn upon an arched and roofed veranda.

In nearly all of those places a woman's daily life was conducted in shadow and shade, and after sundown she hid less light than fell to the lot of the pilgrim fathers 250 years ago.

Under these conditions the human eye develops like that of the cat and dog. It becomes larger and seemingly more lustrous in order to allow the owner to move about in safety and comfort. Transfer this unfortunate woman to the open street, the field or the deck of a steamer, and her eyes are in a torture from the sunlight. Her forehead is contracted by a terrible frown, her eyelids are screwed together and her eyes seem to be just the opposite of what they are described in poetry and romance.

It may be I am all wrong, but of all poetic humbugs, I think that the so-called oriental eye is the biggest.

LESSONS ON LIVING.

What is Taught by Graves Filled With Victims of Kidney Troubles.

Scientific Research has Revealed a New Remedy, and its Trials by the Public Has Proven its Value.

Prevention is better than cure—and sometimes if prevention is neglected, there is no cure possible. Careless indulgence in the grip of the diseases that will drag them down through days and nights of pain, to the grave because they neglect the common symptoms that indicate the danger of Bright's diseased kidneys, and various kidney complaints. Modern ways of living, especially in eating and drinking, have made kidney troubles terribly common, and the increase in death from this cause has led to the keenest kinds of research by scientists to discover what remedy nature has provided.

After a thorough trial, thousands of cures have proven that the discovery of Morrow's Kidney Pills will mark an epoch in the treatment of troubles due to derangement of the kidneys. They are unlike any other remedy in the world. Unlike many of the so-called kidney cures, Morrow's Kidney Pills act once, so that a long course of treatment is not needed. This feature of the new remedy is well illustrated by the case of W. H. Meyers, a well-known resident of Springfield, Ohio, living at 84 Warder Street. Mr. Meyers says: "For a long time I suffered with kidney and urinary troubles. I had such a severe backache, and such a burning sensation when passing urine that I became alarmed. Nothing gave me relief until I tried Morrow's Kidney Pills, and one box quickly and completely cured me, and I have had no return of the trouble. Morrow's Kidney Pills are surely a wonderful kidney remedy, and I advise all who are afflicted with such troubles to use them and be quickly cured."

The lesson that is taught by the graves needlessly filled with victims of kidney complaints is this: Don't neglect a backache, don't neglect headaches, excitability of temper, nervousness. They are signs of disordered kidneys which, if neglected, may lead to deadly disease. One box of Morrow's Kidney Pills will work wonders in improving the tone of your health.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following "This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters, and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky." Sold W. F. Peter, Druggist.

RAILROAD RUMBLINGS

The Pennsylvania railroad company has come to the conclusion that the train newsboys are a nuisance, and has issued orders not to permit them on through trains hereafter.

Arthur Graessle, clerk at the B. & O. S. W. freight depot, is sick with malarial trouble and Sam Jackson is filling his place.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. W. Milhous.

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change. I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

CONTRACT

Awarded to a Spanish Company to Carry Prisoners to Spain.

THE COST \$535,000

On a Basis of Twenty-Five Thousand Men and Officers.

MAGICAL SANTIAGO CITY

Has Already Thrown Off Its Graveyard Appearance.

Major General Wilson's Command Leaves Charleston For Porto Rico—Miles' Men Tired of Waiting For a Convey—General Blanco Is Again Reported as Cut Off From Madrid by Cable—General Brooke's Recommendation as to Troops For the Porto Rican Invasion Not Made Public—General Woodford Calls on the President, but Refuses to Be Interviewed on the Spanish Situation.

Washington, July 21.—Arrangements practically were concluded by the government last night for the transportation of the Spanish prisoners at Santiago from Cuba to Spain.

The contract was awarded to the Spanish Transatlantic company, represented by J. M. Ceballos & Co., of New York. The company agrees to carry the prisoners from Cuban ports to Spain at the rate of \$70 for each enlisted man and \$55 for each commissioned officer, subsistence to be furnished by the company on the army ration basis, as provided for in the government's advertisement for bids.

The award provides also that the company shall have five ships at Santiago in nine days from today, two in 17 days from today and enough to complete the transportation of the prisoners in 21 days from today.

On the basis of 24,000 enlisted men and 1,000 officers, it will cost the government \$535,000 to transport the prisoners.

The ships will fly the colors of Spain and will be manned, probably entirely, by Spanish crews. It was remarked as one of the curious developments of the war that the United States government should enter into a friendly contract with a company, many of whose vessels are auxiliaries to the Spanish navy and some of which have been captured or destroyed by the navy of the United States.

PORTO RICAN INVASION.

Arrangements Being Pushed by the War and Navy Departments.

Washington, July 21.—The war and navy departments are now engaged in making all of the arrangements for the dispatch of the Porto Rican expedition and Watson's eastern squadron. There

Oh, what a warm welcome the first little traveler whom Heaven guides to the door of a woman's heart receives from the happy mother. Every thought and care is given to the comfort and well being of the new comer after it has entered into the portals of life and taken its place at the family fireside.

Yet during the time when baby is expected few women do all they should to insure the little one's constitutional strength and vigor. No mother who wants to have a puny, sickly baby yet unless she herself is entirely healthy in the special, delicate structure which makes motherhood possible, the baby is certain to suffer in some way for her weakness or neglect.

The surest way to avoid this is for the mother to reinforce her own strength by the use of Dr. Pierce's Favorite Prescription during the time of anticipation. It will make her perfectly healthy. It will lighten and brighten the time of waiting. It will make the ordeal of motherhood absolutely safe and comparatively free from pain and will insure a strong, healthy constitution for the baby.

Mrs. Annie J. Taylor, of Loveland, Hill Co., Texas, says: "I am the mother of eight children. I suffered from female weakness. I tried physicians with no avail. When I last became with child I saw the advertisement of Doctor Pierce's Favorite Prescription. I bought two bottles and used them. My baby was born I had a very easy time and have not suffered one hour since from female weakness. Baby is as fat and healthy as can be."

Prospective mothers should send to the World's Dispensary Medical Association, Buffalo, N. Y., for a copy of Dr. Pierce's Common Sense Medical Adviser, which will be sent free on receipt of 21 one-cent stamps to pay the cost of mailing only, or 31 stamps for cloth-bound copy.

has occurred one of those natural pauses in the progress of the campaign incident to the completion of one set of operations and the initiation of another. There being no possibility of the receipt of news of a great battle or of a surrender there is less excitement and less evidence of nervous strain than for weeks past.

General Miles' expected departure was again deferred. The explanation given was that there was difficulty experienced at Santiago in securing the naval convoy for the expedition. It is known, however, in addition that the president himself has restrained General Miles to the extent of adjourning him in earnest terms not to commit the folly of starting for Porto Rico without the most complete preparation.

The government has profited by the lessons taught by the Santiago expedition. Aside from the actual loss of life that might be expected to result from a badly calculated start, it is realized that our relations with some of the European powers would be in a small measure at least impaired by the adverse moral effect created by anything approaching a defeat for the American arms at this stage of the war. Therefore, it is certain that, so far as the department can prevent, General Miles' soldiers will not run short of food, of tents to protect them from the tropical rains, nor of the means of transportation that were so deficient at the beginning of the Santiago movement.

According to the calculations at the navy department Admiral Dewey's fleet at Cavite should now be reinforced by the coast defense vessel Monterey, which, with her tender and collier, the Brutus has now been about 20 days out from Honolulu. With the addition of this fine and powerful monitor, Dewey will be amply able to take care of himself so long as the naval forces in the Philippines maintain the relative proportion they now occupy.

The war department was agreeably surprised at the number of bids received in answer to its proposals for transporting the Spaniards now at Santiago to Cadiz. The terms offered by some companies were regarded as reasonable. The bid from the Spanish Steamship company was a surprise to the department officials, and at least one of them thought that it might be good policy for the government to avail of this offer.

Dr. Greenleaf's last report to Secretary Alger from the American camp at Santiago came late yesterday afternoon and was to effect that while the yellow fever was widely spread among the troops it was very mild in type. General Danfield, who has been suffering from the disease, was reported to be improving.

LIKE MAGIC.

Santiago Has Emerged From Her Graveyard Appearance to Life and Energy.

Santiago de Cuba, July 21.—The city today presents a bright and cheerful picture to what it did a few days ago. Over 30 steamers flying the stars and stripes lie proudly in or near the harbor. Small boats are plying briskly to and fro on the blue waters. Several large steamers—the State of Texas, Leon and Aranzas—are alongside the wharves busily engaged in unloading their large cargoes of supplies and provisions.

In short, everything denotes bustle and activity. To the graveyard appearance of the city when it surrendered has succeeded a scene of life and energy, traffic and general activity. The immense sheds along the waterfront are already packed with merchandise and the large stores reared along Marina street are busy receiving goods, which are being steadily unloaded. Everywhere there are signs of a revival of commercial activity and prosperity.

The change in the appearance of the city is kaleidoscopic and a couple of days, when further shipments arrive, will suffice for the normal business to revive.

The trades and businesses opened their doors for the first time yesterday, cleared their warehouses and made ready for the receipt of goods. All the stores are open today by General McKibbin's orders, but the soldiers remain closed for the present in order to avoid the possibility of a clash between the soldiers in case of drunkenness.

The electric light plant is working. The pawn shops are doing a rushing business, their counters being crowded by people of all sorts of color and conditions, pawning heirlooms, clothes, dresses and furniture. Officers tender their medals, spurs and swords, and civil employes offer their torse shield, gold headed canes of office for a mere song, which are in turn bought at fancy prices by American soldiers, officers or newspaper correspondents as relics of the war. There have been more machetes sold to our men as souvenirs than were laid down on the morning of the surrender, and crosses, service stripes and orders are cheerfully parted with for American cash.

BLANCO'S DISPATCHES.

Several of His Ciphers Drift Into This Country.

Washington, July 21.—Two days ago General A. W. Greeley, chief signal officer, cabled instructions to his officers in Santiago to seal up and place a guard over the three cable lines connecting Santiago with Cienfuegos, whence, by a land line, communication is established with Havana. Last night General Greeley was informed that his orders had been carried into effect.

The closing of the Cienfuegos cables absolutely isolates Havana and General Blanco from Madrid. Blanco's only means of communicating with the Madrid government now is by the Key West cable, which is under the strictest censorship by the government of the United States.

As a result of the sealing of the Santiago-Cienfuegos cables, several cipher dispatches passing between General

Blanco and the Spanish government drifted into this country yesterday. It is scarcely necessary to say that they did not reach their destination.

Expect to Remain at Dan Loring.

Washington, July 21.—Interest at Camp Alger was divided yesterday among the subjects of leaving camp, typhoid fever and a possible order to move southward. Nothing has been heard to indicate that any of the Second corps has been selected to go to Porto Rico and it is believed by many here that the transfer of troops to Dan Loring indicates that the regiments will remain there some time. One of the surgeons at Fort Myer said that there are at least 10 cases of typhoid fever there. Most of them are not of a serious nature. Four new cases were reported yesterday, all from the Sixtieth New York.

Tired of Waiting For a Convey.

Washington, July 21.—General Miles telegraphed the war department late yesterday announcing the arrival from Tampa of the transports Tampas and Neucens with about 600 men on board. These are supposed to include the District of Columbia engineers and an artillery battery. General Miles states that he now has 10 transports with him, and it is presumed they are laden with troops. He complains that the men are very tired waiting for their naval convey and says some of the horses have died from the effects of being kept aboard ship and kept there.

General Woodford Calls on the President.

Washington, July 21.—General Stewart L. Woodford, minister to Spain when the war broke out, called on the president yesterday. The two were joined by Secretary of State Day and an informal talk on the Spanish situation was had. General Woodford refused to talk to reporters on our relations with Spain. Secretary Day said all he knew of peace negotiations he read in the papers.

\$3,000 For a Five-Month-Old Colt.

Lexington, Ky., July 21.—Charley Patterson, the man who developed Oranmore and Hamburg, yesterday bought a 5-month-old colt by Hanover, sire of Hamburg, out of Ben Eder's dam, for which he paid \$3,000. No suckling has brought such a price in years. The youngster is a very fine one.

Steamer Missing.

London, July 21.—The British bark Midas, Captain Messenger, which sailed from Nagasaki, Japan, on Feb. 14 for Portland, Or., has been posted by Lloyds as missing. The Midas was a steel vessel of 1,361 tons, built at Maryport, Eng., in 1893, whence she sailed. Her owners are Ritson & Co.

Pingree Calls on Alger.

Washington, July 21.—Governor Pingree of Michigan, is in Washington. He called at the war department yesterday afternoon and had a long talk with Secretary Alger.

MUST NOW EXPLAIN

General Toral to Be Court-martialed For Giving Up Santiago.

HIS LETTER TO SHAFTER

Said by Madrid Authorities to Contain an Untruth.

A PITIFUL CONDITION

Because of Want of Provision and Ammunition In Which the Spanish General Found Himself—Penalty For Surrendering Troops and Territory Not Under His Direct Command—Official Dispatches From Captain Generals Augusti and Blanco.

Madrid, July 21.—A semi-official note has been published here explaining the circumstances, from a Spanish standpoint, of the surrender of Santiago de Cuba. It declares that the letter which General Tapar "is alleged to have written to General Shafter," is apocryphal, as the telegraph version "contains a statement which it is impossible for General Toral to have made, because it is untrue that his government authorized him to capitulate."

The note continues: "What happened was that the war minister received two telegrams from Captain General Blanco. The first described General Toral's position, which was most pitiful because of the want of provisions and ammunition. It also detailed the enemy's proposals. "In the second telegram Captain General Blanco gave the terms of the capitulation and requested instructions. The war minister replied to both by telling Captain General Blanco to leave every initiative to General Toral, for it was impossible to recommend any other line of conduct. General Toral, accordingly, acted as he thought advisable and would explain before a court-martial the motives which induced him to capitulate."

The military code prescribes life imprisonment for any officer who includes in the capitulation of his own forces other posts, which "though dependent upon his command—are not troops or places included in the action which caused the capitulation."

Senor Sagasta and General Correa, minister of war, declare that the latest news from the Philippines is of the most favorable character. General Correa's advice indicate that the insurgents are now displaying "only a lukewarm hostility toward the Spanish troops."

General Augusti's Dispatches.

Captain General Augusti sends an official dispatch asserting, under date of July 14, that while the blockade is becoming very strict, the enemy has lost heavily in several recent engagements, "by which the morale of the American forces has been weakened and the Spaniards have been greatly encouraged."

The dispatch alleges also that "the garrison is ready to fight to the death," and that General Monet and several officers, who had escaped from Matanzas, have arrived there.

Captain General Augusti concludes as follows: "Modestly and without exaggeration, which is contrary to my character, I have described with loyal candor the situation, to which I am concentrating all my efforts for my country and my king."

An official dispatch from Captain General Blanco announces that the greatest enthusiasm prevails there, and that the feeling in favor of resisting "the Yankee" is universal. It further asserts that the commanders of the volunteer forces at a conference under the presidency of General Arolas, military governor of Havana, resolved to "exhaust their resources and die rather than surrender."

The American war ships, the dispatch says, are off Manzanillo, apparently awaiting instructions, but the bombardment has not been resumed.

MORAL COWARDICE.

Sagasta's Government Charged With Trying to Make a Scapegoat of Toral.

London, July 21.—The Times editorially reproaching the Spanish government with "moral cowardice in endeavoring to screen its own mismanagement by pretending that General Toral has betrayed his country," says: "It is incredible that Spain can hope for anything from Cuba, as it is impossible for Blanco as it was for Toral to fight against hunger and it is unlikely that the former will have anything else to fight with for some time to come. Neither can anything be hoped from European intervention, even if Commodore Watson's squadron comes, though its arrival would be an unwelcome spectacle to more than one European power."

"It may be assumed that Commodore Watson's authorization to visit the Philippines will not weaken the disposition at Berlin to cultivate friendly relations with America and to make light of the escapades of German ships at Manila."

SHIPMENTS TO SANTIAGO.

Government Will Probably Abolish Spanish Objectionable List.

Washington, July 21.—The officials of the treasury department are daily receiving numerous inquiries from exporters and others as to the regulations to govern the shipment of provisions, etc., to Santiago and Guantanamo, and especially as to whether articles prohibited under the Spanish customs law will be hereafter admitted. The officials have not been able so far to take the matter up for final determination, but the opinion is expressed that with the exception of oleomargarine, artificial and adulterated wines and objects offensive to morality, the entire list will be admitted into Cuba practically on the same basis as they are admitted into the United States. The list includes arms of war of all kinds, including projectiles, ammunition, dynamite, etc.; sugar of all kinds; silver or copper money of foreign coinage; honey and molasses of all kinds; pharmaceutical preparations or secret remedies of unknown composition or whose formulas have not been published; saccharine (except for pharmaceutical purposes) and any substances to be used as food containing saccharine; tobacco, raw or manufactured, of foreign origin, except snuff and tobacco in carrels.

FIRST EXPEDITION.

Major General Wilson and His Command Off For Porto Rico.

Charleston, S. C., July 21.—With bands playing and 30,000 people cheering the first expedition to follow General Miles to Porto Rico got away from here last evening. The expedition is under command of Major General J. H. Wilson and will, when complete, consist of the Second and Third Wisconsin, the Sixteenth Pennsylvania regiments and two companies of the Sixteenth Illinois. The first two regiments are on the transports Grand Duchess and No. 30, respectively, and they are at sea. No. 21, carrying the Sixteenth Pennsylvania and the Illinois men, sailed this morning. Each of the ships carries a large quantity of supplies and on the No. 21 there are 1,000 head of mules and the wagon train of General Wilson's division.

The scene which accompanied the departure of the vessels from their docks was one of indescribable enthusiasm. Practically the entire population of the city was in evidence. As the vessels made the stream the bands of shipboard and ashore played national airs and the thousands of people cheered like mad. The expedition will sail direct for Porto Rico.

NO ORDERS YET.

Thirty Thousand Men May Go To Porto Rico From Chickamauga.

Chickamauga, Ga., July 21.—General Brooke and Colonel William Richards, adjutant general of the First corps, who went to Washington to confer with Secretary Alger upon the proposed Porto Rican expedition, has returned to Camp Thomas.

It is learned from excellent authority that it is the earnest desire of General Brooke that the entire First corps form the expeditionary force going from here. This would mean a departure from Chickamauga of about 30,000 volunteers.

Advices are expected from Washington at once and upon their receipt it is probable that immediate orders will be issued to begin the movement.

There is still some question as to whether the corps will go as organized. There are some fine regiments in the Third corps that are thoroughly drilled and equipped and it is not improbable that some of these will be included in the force, being substituted for regiments that have all along been identified with the First corps.

Recommendations Not Made Public.

Washington, July 21.—The recommendations of General Brooke indicating what regiments he prefers for Porto Rica other than those whose selections have already been definitely announced, have not been made public at the war department. The reports which come from Quartermaster Humphrey indicate that it will be a comparatively easy task to supply the army in and about Santiago with subsistence stores, in marked contrast with the almost superhuman efforts necessary while the siege of the city was in progress.

Spanish Officers Short on Clothing.

Annapolis, Md., July 21.—The auxiliary cruiser Harvard arrived in the offing last evening with 34 additional Spanish officers, prisoners of the United States aboard. The new arrivals were embraced tenderly by their brother officers who arrived last Saturday and there was hardly a dry eye among the men as they greeted one another. Like the former arrivals the new contingent is very "short" on clothing, and many of them were dressed in the white duck fatigue uniform of the American soldier.

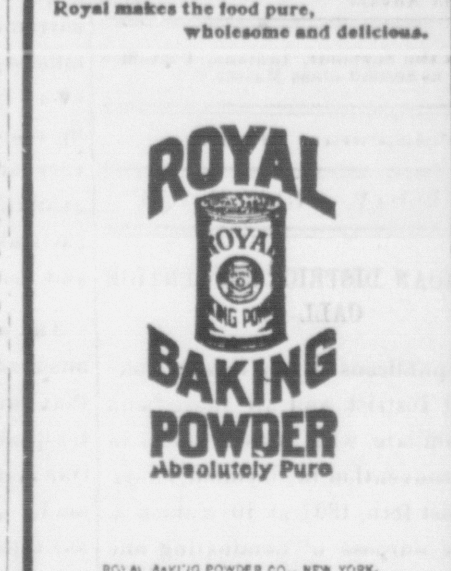

Believed to Have Been Captured.

St. Thomas, D. W. I., July 21.—The Compagnie Generale Transatlantique's steamer Olinde-Rodriguez, formerly the Franconia, plying between Havre and Haytien ports, is now three days overdue from Porto Plata, Santo Domingo. It is supposed that she has been captured while attempting to run the blockade at San Juan de Porto Rico. After leaving San Juan on July 4 she was warned not to attempt to enter on her return voyage.

Order Revoked.

Washington, July 21.—The order sending 19 paymasters to Santiago to pay the troops under General Shafter has been revoked, it having been ascertained that there are not complete records and rolls of the army in Cuba to enable payment to be made.

PORTO RICO EXPEDITION

EXPECTATION THAT IT WILL BE OFF AT ONCE.

Civil Order Being Restored Rapidly At Santiago.—Watson's Squadron.

The expedition to Porto Rico is repeating the experience of the expedition to Santiago in the matter of getting started. When last heard from Gen Miles was still at Guantanamo, fretting over the delay. The war department has been trying to rush matters, and Washington officials hoped last night that the start would be made immediately. Rear Admiral Sampson has also been ordered to start for Porto Rico at once. It is believed by many that General Miles and the expedition are already well on their way but that the reports are held back by the war department.

Civil order has been restored in Santiago, and the only trouble now is over the food supply. Several vessels are now in the harbor, but have not discharged their cargoes, as the customs regulations had not been fully arranged.

Under the new orders to Commodore Watson he is to have a fleet which will still further impress Europe with the size and ability of the American navy, a result that may be of importance if any of the Powers are planning to have a say in regard to the terms of peace with Spain. Reinforced by the Monterey and Monadnock, Rear Admiral Dewey can hold Germany in check in case of any covert act, while Watson will be in position to hasten to his rescue from European waters should other Powers interfere. Commodore Schley, with the Brooklyn, may also join the squadron.

From dispatches sent in by Maj. Gen. Shafter, the authorities believe that the yellow fever among the troops is thoroughly under control. Gen. Shafter has cabled asking the immediate dispatch of two immune regiments for garrison duty, in order that the remaining troops may be removed from the zone of infection.

Lieut. Miley, of Gen. Shafter's staff, with a troop of cavalry for escort, left Santiago Tuesday to make the rounds of the surrendered district and receive the formal surrender of every body of

Spanish troops in the district. A Madrid dispatch says that the Spanish commander at Guantanamo denies the right of Toral to include the Guantanamo troops in his capitulation.

No Liquor for the 159th.

A letter from Col. John T. Barnett, commanding the One-hundred-and-fifty-ninth Indiana, at Camp Alger, has been received by Governor Mount. Colonel Barnett states that since he received the petition signed by one thousand residents of Indianapolis he has placed a guard in front of every place where intoxicating drinks are sold, and no members of his regiment are allowed to enter. He says that two cases of drunkenness in the regiment have been reported. In other regiments, he writes, drunkenness is common, and the "average man" who is absent without leave of absence is on a protracted drunk in Washington.

LESSONS ON LIVING.

What is Taught by Graves Filled With Victims of Kidney Troubles.

Scientific Research has Revealed a New Remedy, and its Trials by the Public Has Proven its Value.

Prevention is better than cure—and sometimes if prevention is neglected there is no cure possible. Careless people get in the grip of frightful diseases that will drag them down through days and nights of pain, to the grave because they neglect the common symptoms that indicate the danger of Bright's diseased kidneys. They are unlike any other remedy in the world. Unlike many of the so-called kidney cures, Morrow's Kidneys acts more directly on the kidneys, and the increase in death from this cause has led to the discovery of this remedy by scientists to discover what remedy nature has provided.

After a thorough trial, thousands of cures have proven that the discovery of Morrow's Kidneys will mark an epoch in the treatment of troubles due to derangement of the kidneys. It is unlike any other remedy in the world. Unlike many of the so-called kidney cures, Morrow's Kidneys acts more directly on the kidneys, and the increase in death from this cause has led to the discovery of this remedy by scientists to discover what remedy nature has provided.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following "This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky." Sold W. F. Peter, Druggist.

RAILROAD RUMBLINGS

The Pennsylvania railroad company has come to the conclusion that the train newsboys are a nuisance, and has issued orders not to permit them on through trains hereafter.

Arthur Graessle, clerk at the B. & O. S. W. freight depot, is sick with malarial trouble and Sam Jackson is filling his place.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. W. Milhous.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist Will send Free, to the Afflicted, Three Little Bottles of his Newly Discovered Remedy to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 183 Pearl St., New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

The Emperor Constantine's Conversion

Change From Rome to Constantinople. The removal of the imperial capital from Rome to Byzantium was one of the most decisive actions recorded—a signal monument of foresight, genius and will. Madrid, St. Petersburg and Berlin are also capital cities created by the act of a powerful ruler. But none of these foundations can compare in scale and importance with the tremendous task of moving the seat of empire 1,000 miles to the east, from the center of Italy to the coast of Asia, from a Latin to a Greek city, from a pagan to a Christian population. The motives which impelled Constantine to this momentous step were doubtless complex. Since the time of Trajan Rome had not been the constant residence of the emperors, except of Antoninus Pius, nor the regular seat of government. Since the time of Diocletian Rome had been abandoned as the official center of the empire. Many places east of it had been tried, and Constantine, when resolved on the great change, seriously contemplated two, if not three, other sites. It had long been agreed that the imperial seat must be transferred toward the east, and there was an instinctive sense that the valley of the Tiber was no longer safe from the incessant onward march of the Teutonic nations in arms.

The tendency was to get somewhere south of the Danube and within reach of Asia Minor and the Euphrates. The greater chiefs had all felt that the empire must be recast, both politically and spiritually. By the fourth century it was clear that the empire must break with the rooted prejudices that surrounded the senate of Rome and the gods of the capitol. And Constantine, the half-conscious and half-convinced agent of the great change—the change from the ancient world to the modern world, from polytheism to Christianity—saw in the church and bishop of Rome a power which would never be his creature. Dante tells us that "Cesar became a Greek in order to give place to the Roman pastor." There is much in this, but it is not the whole truth, for Cesar might have become a Spaniard, or a Gaul, or an Illyrian. Dante might have added that Cesar became an oriental in order to give place to the Goth. Constantine from the first was a Christian city, with an orthodox church, but it was a church that was from the first a department of the state.—Fortnightly Review.
